#### *What is a Life Confession?*

A Life Confession is a private confession in which one confesses as far as possible ALL past sins of one's entire life,

St. Francis said a Life Confession is required to steady and fix the soul. A Life Confession forces us to a clearer self-knowledge, kindles a wholesome shame for our past life, and rouses gratitude for God's mercy, which has so long waited patiently for us.

A Life Confession comforts the heart, refreshes the spirit, excites good resolutions, affords opportunity to our spiritual Father (Priest) for giving the most suitable advice, and opens our hearts so as to make future confessions more effectual.
